

F20 - Study Environment

| Study programme | Building | Problem / Wish | Status | Responsible |
|------------------------|--------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------|
| DAT/SW2 | Auditorium 7 Strandvejen 12-14 | Bad indoor climate | <p>Has been reported to CAS several times recently in May and they have initiated tests and will make an action plan on basis of this. However no news yet. If bigger investments are required this must be prioritized between CAS and the Pro-deans.</p> <p>CS has chosen to escalate the issue to Pro-deans.</p> | First Study Year |
| DAT/SW/lxD | Strandvejen 12-14 | Bad Chairs | CAS is changing all chairs - not at once but continuously. | First Study Year |
| DAT2 | Strandvejen 12-14 | Aesthetic: Hallways are not exciting to look at. Might be improved by art on walls | CAS is investigating this and has had meeting with Prodeans on decoration of walls at AAU. No news on this yet. | First Study Year |
| DAT2/SW2/ BAIT2/DV2 | | <p>Social activities:</p> <p>Hard during corona not to meet people/ Concentration is bad/Virtual student work places cannot replace physical</p> | Understandable and major challenge for all. | First Study Year |

|-----------------|-----------------------|-------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------|
| | | student work places | | |
| DAT/SW2 | Strandvejen 12-14 | Lack of space outside student work places for socializing during the day | Must be taken with semester coordinator/on steering group meetings or tutors. | First Study Year |
| DV2 | Strandvejen 12-14 | Not a lot of social activities across semesters – maybe some more PR about Friday bars and more competitions/activities | Must be taken with tutors who are good at advertising activities across semesters. | First Study Year |
| IxD2 | Badhusvej | We feel separated from the rest of the education and miss study related relevant events | All educations are situated together we cannot gather all educations from the same department in one building. | First Study Year |
| IxD2 | Skibbrogade 5 | Lack of water dispensers | Building owners has declined this wish earlier, but FS will report it again. | First Study Year |
| DAT/SW4 | Frederik Bajers Vej 7 | Group rooms are too small No clusters or free workspaces in building | We must cope with the size, which fits with the area allocated to student work places in general. Student work places at Cassiopeia are bigger than norm. | Department of Computer Science |

| | | | Students can also use SL300 for workspaces. Cluster signs have been set up and tape on the floor. | |
| General | SEL300, SLV312 | Bike sheds are still missing | We have reported this to CAS in Spring and again in September 2020. Feedback from CAS: We await negotiations of rent contract and there is no investments before this in place. | CAS |
| General | | Social is missing in 2020! | This is very understandable and hard. However, we are aware of this/are working with F-club to set up some online activities. We hope for better conditions in 2021 | Department of Computer Science |
| SW4 | Frederik Bajers Vej 7 | Indoor climate is not good | Has been reported to CAS – no news but followed up 4/12. | CAS |
| SW4 | Frederik Bajers Vej 7H | Continuous problems with microphones in lecture rooms | The department has reported this in several ways recently in November. The problem has shown to be worse in connection with hybrid teaching. ITS has adjusted output from VK system and has tested the sound | ITS |

|-----------------|-------------------|-----------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------|
| | | | in a zoom meeting and it sounds normal. | |
| DAT6 | NOVI9 | Shared student work places are not optimal/to many groups in one room | Sharing of group rooms is a future condition students need to live with. In terms of square meters per student there is plenty of room. | Department of Computer Science |
| IXD4 | SEL300, Cluster 5 | New student work places not so practical in terms of noise and supervisor meetings | Sharing of group rooms is a future condition students need to live with. | Department of Computer Science |
| IXD4 | SEL300, Cluster 5 | No noise free zones at Cassiopeia | The department is considering "noise free" zones in connection with rebuilding. | Department of Computer Science |
| SW6 | NOVI9 | Bad indoor climate in group rooms / some of the rooms feel small compared to the number of people in them | Rooms are quickly warm despite central steering of ventilation. Has been reported to CAS again. In spring guidelines were made for the ventilation – these are set up on the wall and has been sent out to all students and in the student handbook. | CAS |
| IXD6 | SEL300, Cluster 5 | Moss wall is starting to decompose / maybe is should be replaced with something else | We will look at it and the wall will maybe be replaced with something else. | Department of Computer Science |

|-----------------|-----------------------|------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------|--------------------------------|
| | | /suggestion for wood wall with IxD sign in LED | | |
| DAT6/IDA8 | SEL300 | Cold in seminar rooms | Please use radiator | Department of Computer Science |
| IxD4 | SEL300, Cluster 5 | Inventory: Coat racks are still missing | The coat racks have finally arrived. | Department of Computer Science |
| DAT6 | NOVI9 | NOVI9 window shadings do not work properly/Wish to be able to adjust them manually | Reported to CAS and they have tested them and they are all functioning. | CAS |
| IxD8 | SEL300, Design Studio | Design Studio 2: Cannot adjust tables in height: | Nothing to do about this – students can adjust the chair instead. | Department of Computer Science |
| IxD8 | SEL300, Design Studio | When having lectures/not optimal/too close to projector/a bit crowded | Unfortunately that it is the terms – this is the space available. | Department of Computer Science |
| CSIT8 | SEL300 | Wifi is not that good outside cluster 2 | Reported to ITS and feedback is: More access points are being established to help bad wifi. | ITS |

| Study programme | Building | Problem / Wish | Status | Responsible |
|-----------------|------------------------|---------------------------------------------------------------------|----------------------------------------------------------------------------------|--------------------------------|
| IxD4 | SEL300 | Communication: F-club should present themselves better: | Video was made in Spring and presented on cs.aau.dk og Moodle. | Department of Computer Science |
| SW6 | NOVI9 | Wish for more shared things (e.g. table tennis and table football): | There is table football in the kitchen lounge area. | Department of Computer Science |
| IxD8 | SEL300 | HDMI cable in roof and maybe guideline to projector | The wish has been sent to semester coordinator and local ITS supporter about it. | Department of Computer Science |
| IxD8 | SEL300, Design Studio2 | Miss clarification of when alarm on terrace door is active | We have asked CAS to set up sign on door. | CAS |
